

A Delicious Dilemma

Cowabelle is having her friends over for ice cream but she only has enough KinzCash for one flavor of ice cream and she is not sure which flavor to buy from Mr. Moo. She asked her friends what they would like. Look at the circle graph and answer these questions to help Cowabelle figure out which ice cream she should buy.

1. How many flavors did the friends choose from? _____
2. What fraction of the friends chose Candy Cream? _____
3. Did the friends prefer Chili Chocolate or Squishy Squash? _____
4. What fraction of the friends chose Squishy Squash? _____
5. Which flavor should Cowabelle get, based on the friends choices? _____
